

End-to-End Test Management, AI-Enhanced, Powered by You

Unify control and speed. Get the comprehensive test management suite you need, with the intelligent AI automation you want. No trade-offs.

Automated + manual test management, AI conversion, observability, and insights

- ✓ Seamless Migration & Integration
- ✓ Best-in-Market Dashboards
- ✓ Enterprise-Grade Features That Scale
- ✓ Read-Only Licenses
- ✓ AI-Powered Test Generation
- ✓ Universal Framework Support
- ✓ Top-rated Support Team
- ✓ Intuitive UI

Meet AIDEN: Your AI Testing Assistant

Analyze 🔍
Find the best tests to automate.

Generate ✨
Instantly create code from plain text.

Execute ⚙️
Run tests in the cloud or your CI/CD.

Accelerate Test Execution by up to 60×

99.9%
enterprise-grade uptime

90%
fewer production bugs

80%
end-to-end coverage

//

Qase's test case tracking, test case prioritization, assigning of test cases, test plans/cycles — which can be used as a base to create new test runs — all make release planning assured to be faster and of higher quality.
